THE NEWS.

Gold is tumbling, day by day, as the Union cause grows brighter. It opened yesterday, weak at 238, at noon had fallen to 236, and during the evening exchange, declined to 233¾. The gold barometer indicates a healthy condition in the political and military horizon, and as gold goes down, by the same sign we can tumble the Copperheads.

From Gen. Grant's army the news is encouraging, and everything looks cheerful. The rumor emanating from the N. Y. *World* that the rebels are preparing to evacuate Petersburg, needs confirmation badly. If true, Grant will hold Richmond at his mercy, and the fate of Vicksburg awaits it. It is the most cheering sign that while our army is enjoying a brief season of repose, it is being rapidly filled up and girding itself for the coming struggle, which cannot long be delayed. *Per contra*, the rebel army is gradually weakening, and deserters, a member of Grant's staff expresses it, "are coming over to our lines in droves."

Read the dispatch from Cincinnati and see how gallantly and gloriously Ohio is going into the contest. She is bound not alone to go for Abraham Lincoln, but to give him the majority with which she branded Vallandigham as a traitor, and proved herself the banner State. Illinois will enter the lists in generous rivalry for the honor. Our editorial correspondent at Cincinnati also gives us the cheering intelligence that Sherman will not long be idle. His troopers are already remounted and awaiting the bugle call to put spurs and away.

We call the special and careful attention of our readers to the eloquent and thrilling appeal of the National Union Committee to the people of the United States, published upon the second page of this issue. It is a document which will commend itself to every loyal man as a clear and candid statement of the condition of the country, and the duties of American citizens in this political crisis. Copperheads might read it and derive important benefit therefrom.

The split in the Democratic ranks daily assumes more formidable proportions, and to that extent has it succeeded that Sen. Wood, of the *N. Y. Daily News*, feels justified in announcing that the preliminary steps are being taken by the peace men to call a National Convention of the Democracy to place in nomination candidates for President and Vice President. From Copperhead quarters we hear of similar proposals. The Copperhead family is truly harmonious. With a war and a peace candidate on a peace platform and a war letter, they are like the Frenchman who called for something to eat. The man at the bar fixed a cocktail. The Frenchman, observing the contents as they were put up, said: "Monsieur, you put in a little too much brandy to make her strong, a little water to make her weak, a little pepper to make her hot, a little ice to make her cool, a little sugar to make her sweet, a little champagne to make her sour, and you call her new brandy cocktail. *Voilà her non grand ouvrier.*" And of such are the Copperhead platform, candidate, and party.

Gen. Grant is reported in our dispatches this morning to have gone, *en route* for Washington. Our Washington correspondent sends a budget of interesting and significant extracts from the rebel papers in the interior of the South, whose view of the rebellion is not so much colored as that of the papers published under the eyes of the rebel authorities. The candid and decisive manner in which the conscription is being enforced, seizing old men of seventy and boys of sixteen, the proclamation ordering all absentees to return to their allegiance to the country, the offer of pardon to deserters, and the sweeping out of provost marshals' offices, quartermasters' and commissaries' departments, indicate that they are organizing and mustering for the last desperate struggle.

Our special correspondent at Freeport sends cheering news of the progress of the Union cause at various points in the State. Twelve an immense German meeting was held on Thursday. Vallandigham is not nearly considered an element of the German character, but Gov. Hoffman and Lt. Stevens have aroused a feeling among their countrymen which is spreading and inoculating even the German Democrats with the love of liberty and a new feeling of devotion to the Union. The report of the meeting at Freeport also evinces that the people of that city, who have just shown their patriotism by filling their quota and leaving nearly one for the next call, are wide awake and true to the political demands of the hour.

A rumor comes from St. Louis, apparently reliable, that Price, at the head of 5,000 cavalry, has crossed the border, and is now in Missouri. In the present unsettled condition of military affairs in that State, the news comes unexpectedly and startling. Colonel Dick Oglesby has drawn a sewing machine at the State Fair at Decatur. He drew a better prize at the hands of the people of Illinois next November.

Hon. John Wentworth will address a Union meeting at Madison, Wis., on Wednesday next, and at Palatine, in this county, on Saturday afternoon next, and at Burlington in the evening of that day.

A telegraph reports that the insane asylum at Binghampton, N. Y., took fire last night at 8 o'clock. It was feared the entire structure would be consumed.

THE ST. LOUIS RIOT.

We publish this morning an account of a riot of not very alarming proportions, which took place in front of the Lindell House, in St. Louis, on Thursday evening. A party of rowdies took offense at the proceedings of a Union meeting, and stoned them out of the street, torn down their transparencies, and interfered with the performance *sine die*. Details can be obtained with boxes at the door. The disgraceful affair and the cause for combatting the errors of the Democratic party are at the ballot-box on the day of election, when the only weapons will be votes and tickets. The proceedings of the soldiers who broke up the Lindell House meeting were wholly unjustifiable. There is virtue in the ballot-box in this country to vote down the Copperhead ticket, and we trust there is enough of it in St. Louis and elsewhere to put down, as iron hand, all lawless and riotous attempts to disturb any peaceable meeting of loyal citizens.

FROM WASHINGTON.

Highly Important from the South—The Rebel Conscription.

[Special Dispatch to the Chicago Tribune.]

WASHINGTON Friday, Sept. 15, 1864.

We have files of the Charleston *Mercury*, Raleigh (N. C.) *Progress*, Georgia *Constitutionalist*, dates to August 31, *Register*, Montgomery *Mail* and Memphis *Appeal*. These interior rebel papers show much more plainly than the Richmond papers how remorseless is the system of conscription with which the rebel leaders are filling their army for the last desperate struggle. Note has already been made of the fact that Governor Brown, of Georgia, and Governor Watts, of Alabama, have called on all the citizens in their States to take the oath of allegiance and hold themselves in readiness for service in the army, or else at once leave the country; also, of the order of Gen. Jones, of Charleston, revoking all exemptions granted prior to May, 1864; also of the order of Governor Bonham, of South Carolina, virtually putting into service every male person in the State between the ages of sixteen and seventy. From their papers it appears that the cadets of the Georgia Military Institute are doing regular military duty at Milledgeville. Brigadier Gen. Wright, commandant of the post at Augusta, orders detailed reports of employes of Quartermasters', Commissaries', ordnance, and medical departments with the view to see if more are not employed than are needful. Colonel Brown, commander of conscripts for Georgia, orders all persons in Richmond county, Georgia, who claim exemption to present their claims for exemption on the 6th of September so that it may be sent if they have strictly complied with the conditions, and state that all failing to do so will have their exemptions revoked and be ordered at once into active service.

The Charleston *Mercury* of the 7th says the aspect of affairs is anything but hopeful or cheering, and only the combined energies of all the people and the government can save the State from the grasp of the invader.

The Atlanta *Register* of the 31 says all the local troops left to-day for the front, and follows the statement with an urgent call upon every man capable of shouldering a gun to attend a meeting to organize forces for protecting the city. Major Gen. Howell Cobb, commanding the Georgia reserves, issues an address to the militia, and invites all exempted men in the State to meet and organize in their respective counties in support of his headquarters at Macon, and says that all detailed men refusing to obey the order will be immediately sent to the front.

The Raleigh *Progress* of Sept. 7th says the whole extent of disaster in Georgia was the want of men, and the permanent loss of that State will be a blow the Confederacy cannot overcome. The whole fighting, population of Georgia, Alabama and Mississippi must at once take the field, or we must abandon the dream of independence.

These numerous orders and proclamations are all dated since the fall of Atlanta, and make very significant the straits to which the rebels are reduced. As Gen. Grant pithily says: "Their only hope now is in a divided North, and the end is not far if we are but true to ourselves."

SECOND DISPATCH.

[Special Dispatch to the Chicago Tribune.]

WASHINGTON, Friday, Sept. 16.

If "coming events cast their shadows before," probably there is something in the fact that every available agent and nurse of the Sanitary Christian Commission left this city yesterday and to-day for City Point.

Some months ago, one Jose Dulleville was arrested as a spy while prowling around our works opposite Cincinnati. A lengthy examination did not bring out proof enough to convict him, and he was released.

Among the bounty-jumpers who undertook to get away by swimming the Potomac, just above Georgetown, two or three nights ago, and only succeeded in getting caught by our guards, was one Smith, at a New York rendezvous, who gave his name as Bright, and told a pitiful story about family troubles, etc. He was brought before Manney Litton, Superintendent of the Department of the Ohio and on duty in Cincinnati, who is now Assistant Provost Marshal of this District, who recognized him and turned upon him a copy of Governor Yates's order for release, etc. Seeing he was caught he owned up, and is now in a fair way to receive merited punishment.

Seventy-eight rebel deserters were sent up from City Point to-day, and twenty-one down from Harper's Ferry. Since the beginning of the month the number of this class who have reached Washington is over 700, nearly all of whom have taken the oath and gone north in search of work. It is represented that hundreds more would desert if their families could get out as refugees, and that thousands will desert when the terms of Grant's late order are known among the privates.

Charles Connelly, formerly of Salem, Ohio, who held an important and confidential position in the Treasury Department, and was arrested some nine months ago for embezzlement, has been released from jail on giving $3,000 bail. The amount of his embezzlements was reported as high as $30,000, but it is understood the money was ready, or quite all returned.

A number of gentlemen are here from New Orleans on business connected with the question between the Government and the cotton traders.

Two regiments of Pennsylvania troops passed up the avenue to-day on their way to the front.

The Union men of the city have organized and hold nightly meetings which are largely attended. Lest evening they hung out a splendid flag. The Democrats don't make any complaints, because they monopolize all the cheering for Grant, Sherman, Farragut, and the army and navy.

The Internal Revenue receipts for the first half of the month are about eight and a half million dollars, being an increase of over a million on the same period of last month.

NEW YORK, Sept. 16.—The *Commercial's* Washington special says nothing has been received by the Government to-day, and rumors to the contrary are false.

The statement that Forrgut's fleet has approached Mobile in line of battle is not believed at the Navy Department. He does not intend to attack. Secretary Welles does not approve the policy of Admiral Hollis for the present, the forces being needed elsewhere.

FROM CINCINNATI.

The Union Men of Ohio Aroused—Political Prospects Bright—Important from Sherman's Army.

[Special Dispatch to the Chicago Tribune.]

CINCINNATI, Sept. 16, 1864.

The political campaign in Ohio is becoming warm and interesting. The Republicans are waking up and going to work in earnest. They are holding meetings in every portion of the State. All the leading men are engaged in the canvass. The people are ready to carry the State, but to maintain the enormous majority obtained last fall. Two years ago the Republicans elected only five members of Congress, while the Democrats elected fourteen. This fall the Republicans are sanguine of carrying sixteen at least, including both members from this county. Sunset Cox will be beaten by a heavy majority in the Columbus district.

Pendleton, McDarr, Vallandigham, Long and other peace leaders are disgusted with McClellan, and have receded from the contest.

The Copperheads are making a feeble fight, in consequence of the current over the Chicago Convention and the absolute certainty of the Republicans sweeping the State at the October election. The majority on the home vote will exceed 40,000. The soldiers' vote will add still to 50,000.

The disaffection with Long's manifest thirty days ago has disappeared, the Fremont schism is pretty much healed, and the Germans will rally as heretofore for Liberty and Union.

The Republicans of Ohio will all support Lincoln, yet they are exceedingly anxious to have him remodel his Cabinet, according to the hint contained in the Baltimore platform. He would add vastly to his popularity by so doing.

The draft will be announced in the ensuing week. Volunteering is brisk and will, and there will be no call for further drafts. Ohio's quota.

Reports to-day from that Sherman's rest will be brief, and that he will push further South before long. His cavalry men are now remounted and in the best condition for raids. Sherman will not allow mood to recuperate, or to reinforce Lee with impunity. The game played on us last year will not be repeated this fall if Sherman can help it.

The belief is general here that gold will go below 200 this fall, and that all goods must fall in price proportionately. Merchants are acting on this opinion.

FROM INDIANAPOLIS.

Interesting Military News—Receptions, Arrivals and Departures of Regiments, &c.

[Special Dispatch to the Chicago Tribune.]

INDIANAPOLIS, Friday, Sept. 16.

The 10th Indiana, Col. Taylor, and 6th battery Capt. Miller, were honored this afternoon by one of our characteristic Hoosier receptions in the State House Square. The troops having been drawn up in line, Governor Morton came forward to address them, and was received with loud cheers. Having recited the histories of the battery and regiment, he congratulated them that they had always done their whole duty as soldiers, and never turned their backs to the foe. He told them their time was out, but if the danger of the country should prove threatening, or if they would have a greater influence in their respective neighborhoods than they ever had before, and that they should prove themselves as good citizens as they had brave soldiers. He said there were some who called this war unholy, wicked and unconstitutional. It was a slander on the army. These men clamored for an armistice. An armistice means an abandonment of the war. If the war stops, it will never be renewed. If an armistice is granted, it will only invite the slain powers to recognize the South, and they would do so in thirty days after the happening of such an event. He asked, How does it strike you? Do you want to see the smoke of battle on your garments? Shall Sherman and Hood for ever desolate? Stand erect, forever, never! He said the army is not a self-sustaining machine. It must be supported by the people. They had been told that Sherman was on the way of short rations, &c., but they never would forgive the men who slander the cause for which you fight. Cries of "Let Sherman attend to the matter."

At the conclusion, cheers were given for Lincoln, Morton and the Union, and three groans, proposed by one of the regiment for Joe McDonald, met with a unanimous response.

Col. Taylor responded briefly in behalf of the regiment, after which Col. Kaz and Capt. Miller made brief speeches.

The 6th Indiana, Lieut. Colonel Campbell, 991 strong, arrived this morning on the 20th Illinois, Lieut. Col. Chandler, 720 strong. The latter regiment is on its way home. The 143d regiment, which will reach here to-night, is 1,000 strong. Some 900 men have been enlisted thus far. A company from Lagrange county, Capt. Johnson, arrives for Fort Wayne to-night. It will be the first in camp.

The following promotions were made to-day: Wm. H. Judkins, to be Quartermaster of the 10th; Geo. F. Williams, to be Quartermaster of the 16th; Archibald Brown, of John B. Larkin, of the 17th, to be Surgeon of the 33d.

The 6th, 7th and 36th regiments will have a reception on Monday next.

FROM ST. LOUIS.

Invasion of Missouri by Price's Cavalry—The Hotel Riot—Interesting Political Meeting—Arrivals, &c.

[Special Dispatch to the Chicago Tribune.]

ST. LOUIS, Friday, Sept. 16.

A statement was published in one of the German papers, this morning, to the effect that Price with 5,000 cavalry had entered the State at some point on the Southern line. This report is not confirmed by any information received at headquarters in this city, but reliable intelligence has been lodged with the Commanding General of the St. Louis District, to the effect that Price with a considerable body of cavalry crossed the Kansas River at Jacobson's on Thursday last, the 8th inst. It is a reasonable fact that their march would have brought them within the Missouri line by the time stated in the report of this morning. Troops are now in the field in sufficient force to meet any invasion in this city, but reliable intelligence has been lodged with the Commanding General of the St. Louis District, to the effect that Price with a considerable body of cavalry crossed the Kansas River at Jacobson's on Thursday last, the 8th inst. SAUL AMONG THE PROPHETS.

The Chicago *Times* has had a vision of judgment. It is making sheets of distress. That disloyal and hardened sheet, whose utterances for three years past have gladdened all rebeldom, came out yesterday in the garb of humiliation, with ashes on its head and with half a column of Republican doctrine in its mouth. Hear it:

"When Democracies assemble to mature, if there be among them any men who are or pause to say, *let them not forget that the Constitution itself is a product of great elements.* It grew from the necessities of a loosely joined confederation whose powers or parts *it sought by its provisions* best to unite. In the golden words of its preamble, it was ordained to "in order to form a more PERFECT UNION:" It was intended for that glorious mean which should at once leave the utmost power possible to States, and yet secure to the central government sufficient strength to make itself operative and permanent. It did not leave each State as entirely independent sovereignty, nor did it give to the consolidated government any more power than was imperatively added to answer the end for which the general government was made. The sovereignty of State originates in the people; the power of the Federal Government originates in the people; and the people entrusted each of these powers in the United States, so do the states surrender some of their powers in the formation of the Federal Government. *It is a mistake to argue* that all governments in any government it is in fact always the concentration of certain powers surrendered by the people; and whether in the name of liberty or of government, any government it is in fact sloppy

THE CITY.

THE FEMALE SOLDIER.—The young man who was arrested a day or two since, charged with being a woman, gallantly made a full confession of her offense, and was sent home to her friends in Lafayette, Indiana.

FRUITS.—We acknowledge the receipt of a basket of peaches and dishes of pears, from Dr. Delamater, of St. Joseph, Michigan, the former of which especially are a little in advance of the stock usually met with this season. Newhall & Greed, No. 52 South Water street, have a few of the same sort.

ROBBERY.—A young man from Peoria, named Daniel S. Butler, was robbed of $90 on Thursday night at Wing's Hotel in the North Division. His bedroom was entered and his pants taken. They were found yesterday in the back yard of the house. Suspicion rests upon several porters who were hanging about without any apparent business, and were missing the next morning.

BUFFUM'S.—The newly re-fitted and new elegant hoot and shoe store of S. S. Buffum, in Dyer's Block, on Randolph, near State street, is now filled with an elegant stock of goods, entirely new and selected expressly for this market. Mr. Buffum has thus come out from the effects of the recent fire as good as new, and worthy a visit from all who desire goods in his line. His is one of our oldest houses in the trade.

ARSON.—G. Brunio and Sidero Morosi, Italians, keeping the saloon in the house on Clark and Jackson streets, were yesterday arrest ed, charged with setting the premises on fire. The flames were discovered in the cellar, and in the morning and speedily suppressed. What their object was is not known. They were held for further examination.

NORTH-WESTERN PHOTOGRAPHIC SOCIETY.—A special meeting of the members of the North-western Photographic Society was held last evening, in the Tremont House, President Brand in the chair, at which it was resolved to rent a suite of rooms in Rice's building, have them fitted up, and adorned with the finest productions of the art.

We hope the movement so auspiciously inaugurated will be carried out, so that our citizens and strangers can have an opportunity of increasing their love for the fine arts.

FIRE AND ACCIDENT.—On Thursday afternoon, the barn in the rear of the residence of Dr. Ray, on Illinois street, was discovered to be on fire, by the carelessness of some boys who were smoking therein. A steamer was quickly called and extinguished the flames before any damage of any account was done.

A little boy in the crowd was run over and had one of his legs broken in two places. Our reporter did not learn his name.

FARMS AND PERSONAL PROPERTY FOR SALE.—We call the attention of our readers to the advertisement of B. Nevins in our issue of to-day. The farms and property offered for sale are represented to be in a excellent condition; the farms are situated in the best portion of the State, well watered and timbered. To any one wishing such property, we know of no more favorable opportunity than will be offered by this advertisement to the attention of all our readers.

POLITICAL HANDBOOK OF ILLINOIS.—An interesting political handbook of Illinois has been prepared and published by James Van Vechten, of this city, embracing three maps of the State; showing each Congressional, Senatorial and Representative District, with their respective numbers, and an abstract of the votes by districts in Nov. 1862, and an abstract of the votes by counties, for President, in Nov. 1860; also, of State Treasurer in 1862, and Governor, in Nov. 1863. Also, showing railroads, stations, counties, townships, sections and rivers. The correctness of the political statistics is endorsed by the State Central Committees of both parties.

THE CITY PRINTING.—A correspondent asks why that provision of the charter has not been complied with which makes it incumbent on the Comptroller to cause his monthly statement to be published on or before the fifteenth day of each month. We know not the reason, further than that the injunction applied for by Alderman Grace, may have had reference to do with it. The Comptroller is restrained from paying, we opine that the Tribune does not care to print. After all, however, this is only another of very many instances where the Copperheads have broken the provisions of the charter which themselves framed.

PERSONAL.—Charles L. Wilson, of the Chicago *Journal*, and late Secretary of the American Legation at the Court of St. James, arrived home yesterday morning, in good health and spirits. Since his arrival from England, he has visited New York, and Washington and Philadelphia and his numerous personal friends in this city will be glad to meet him.

—W. H. Hall, the manager of the Telegraph office in Springfield, has resigned his position there, for the purpose of coming to Chicago to take the same position, in the office of the Illinois and Mississippi Telegraph Company. We presume Gen. Cooper's opinions from the citizens of Springfield, and is in every way suited for the duties of his office.

REED'S TEMPLE OF MUSIC.—For several evenings of this week the elegant triple sales rooms of Reed's Temple of Music have been crowded and visited by many of our citizens to examine for the last opportunity the splendid national picture "Washington Irving and his friends at Sunnyside." It has been a fine week for the sale of pianos, and the spectators have wondered at the variety and extent of Mr. Reed's stock of pianos from half a score of the best Boston and Boston makers, to the while a magnificent Calcheering Grand, under skilful hands, has delighted all listeners. Mr. Reed's sales have been large, and his stock is now consequently extenpolished, and the secret of the success of his establishment more fully shown.

MILITARY FLESH BROKERS.—At the present time Cook County has more than enough to do to fill her quota without adding to the lists of other States. From reliable information we learn that five or six persons, some of them believed to be military men, are engaged in persuading the members of the Veteran Reserve Corps, whose time has expired, to re-enlist, and then by the promise of a higher bounty, cause them to swear that they are or are citizens of New York, and credit them to the quota of that State. The movers in this novel style of flesh trading obtain $1,100 for each recruit, of which they pay him $400—a pretty paying business to those concerned.

A MARRIAGE AT THE ARMORY.—Yesterday Emma Nelson, a sprightly, good-looking girl of seventeen summers, appeared at the Police Court, and made complaint against James Olson for seduction. Mr. Olson came to deny the charge. When Justice explained the penalty attached to the offense, he became alarmed at, and unconcerned with Emma as to what should be done. She said she was willing to become his wife, and proposed that method of settlement, to which the accused at once consented. He at once procured the necessary license, and Judge Miller performed the requisite ceremony. When the nuptial knot was being tied, the recollection of James for the lady seemed suddenly to vanish, and he flatly refused to take her by the arm or accompany her home, though she seemed quite fond of her newly made husband.

NEW RAILROAD CONNECTION.—Passed as Chicago is for her admirable system of railroads and railroad connections, her business men and capitalists are not yet weary of well-doing in this respect. The Peninsular Railroad, from Escanaba on Green Bay on Noc to Marquette on Lake Superior, is nearly completed. About the middle of October the road will be finished to Ishpeming, where it will the Northwestern Railroad. The officers of the latter road have recently returned from a trip along the new line, and are much pleased with the advantages that will be secured to this city. The bulk of the iron and copper trade of the Lake Superior region has hitherto been monopolized by Detroit and Cleveland, will make this city the base of supplies and place of sale, and at no distant date we hope to chronicle the erection of works for smelting the crude ore.

WIDE-AWAKES.—Few of our readers forget the "Wide-Awakes" of the last Presidential campaign —those men who marched through the streets of all our large cities, bearing lamps and wearing caps. "It is proposed to revive the organization. We hope the intention will be carried through. Never in the history of the country was there a more urgent demand for organization among the loyal masses than at the present time. Organizations of this character take well with the people. There is a fascination about torch-light processions and uniforms, that is inevitable, and many who might otherwise be lukewarm in the glorious cause, will be induced through the means of the "wide-awakes" to persevere to the end in the good work. The organization we think will be perfected and the ranks filled up. As the torches and uniforms are not to be had for nothing, an appeal will no doubt be presented to the business men and capitalists of the city, asking for assistance, which we hope will be generally given.

A NEW FIRM IN AN OLD PLACE.—Several years of highly successful business by its late occupants the Messrs. Miller, had made the double store, Nos. 235 and 237 State street, prominently known in the line of Stoves, Tin and Hardware, and Housekeeping Goods. Messrs. Day & Bonsteel, their successors, enter upon the same department of our city trade, with every promise of sustaining and carrying forward the reputation of the stand. To such as require stoves or goods in housekeepers will be interested to know that they retain the agency of the "Model Cook," which well deserves the name, and also of "Victor Gas Burner," both of them of the highest approved excellence. The new firm are not new to the enterprise they have undertaken, and possess superlative facilities, skill and excellent facilities, all of which will redound to the advantage of their patrons. This is just the season of the year when readers will find much hints as these valuable, in proportion as they are seasonable.

AN UNPREMEDITATED CRABBE.—The columns of the TRIBUNE of yesterday contained a statement under the head of "Burial Outrage" which we have subsequently ascertained does great injustice to Mr. S. H. Cromwell, an undertaker, in the employ of the Rosehmond Board in this city. Mr. Cromwell was acting under orders from the office in demanding the names of parties in tow of the substitute fund, and in refusing the privilege of removing no one but they are enrolled in this county, and liable to draft in our quota. County refused to give the name, but Mr. Cromwell, by the order of the office, where, on being examined by the Chief Enrolling Officer, Col. T. Hillman, Mr. Cr. still refused to give his name, and was by Mr. Hillman committed to the custody of the Provost Marshal. Colonel did not take him in a carriage, but in a hack, though she seemed quite fond of her newly made husband.

TAYLOR'S BATTERY ASSOCIATION

Formal Organization—Election of Officers—Promotions, &c.

An adjourned meeting of the members of Taylor's Battery (Co. B, 1st Illinois artillery) was held at room No. 1 Tremont House, on Monday evening, 12th inst., to perfect the organization of this Association for the election of officers.

The subjoined letter to Captain Rumsey, from Rev. W. Barry, Secretary of the Historical Society of Chicago, under date of Aug. 1st, was also read:

DEAR SIR—In this Society's behalf, I have the honor to acknowledge the receipt of your letter of the 30th ult., accompanying the presentation, for safe keeping by this Society, of the stand of colors of Taylor's Battery, (Co. B, 1st Illinois artillery,) patriotic Board of Trade of Chicago: borne by them through many hard-fought battles, among which, more especially, at Shiloh and Perryville, and which they never left behind them. Here at this Board be and is hereby instructed to make a deed or deeds to the purchaser or purchasers of said lands, on the certificate of the Supervisors of said town of Bloom.

On motion, the report of the Committee on Miscellaneous Claims was received and adopted.

On motion, adjourned until 10 o'clock this morning.

MURDEROUS ASSAULT.

Police Sergeant Hickey Shot by a New York Rowdy—Possibly Fatal Result.

A murderous affray occurred early yesterday morning on Griswold street, near a notorious house of ill-fame, resulting in the dangerous wounding, by a pistol ball, of one of our most efficient police officers, First Sergeant Michael C. Hickey, of the First Precinct Police. The shooting occurred while the assailant was under arrest for having been engaged in a drunken row. The particulars of the sad occurrence are about as follows:

About 1 o'clock yesterday morning Officer Hickey was informed that a number of "roughs" were at the house of Josephine Neary, on Griswold street, where they were committing all sorts of outrages upon the inmates and the furniture.

In company with Officer Miller he went to the house, but the rowdies had left and the officers started home. They had not proceeded far when they were overtaken by a woman and requested to return, as the rowdies were again at work. Sergeant Hickey, accompanied by officers Barrett, Miller and McCabe, at once went to the scene of the disturbances and found two desperadoes, named John Riley and Michael Kelly, the former of whom was engaged in a vigorous demolition of the furniture of the establishment. The officers were informed that Kelly was not engaged in the affair, and he was not arrested; but Riley was at once taken in charge by officer McCabe, and the parties started for the station house.

Kelly followed them and soon began a violent abuse of the Sergeant, saying that he dared not arrest him, and threatening to release Riley. At this Hickey turned around, and it is supposed was about to arrest him, when he drew a revolver and fired, the ball striking the officer in the left side, passing through the lung and lodging under the spine, inflicting a highly dangerous wound. At the same time, Riley, who, by-the-way, had drawn a revolver and attempted to fire, but was at once knocked down by last officer. After having fired, Kelly threw away the pistol and attempted to escape, but was soon caught and—in company with Riley—taken to the Armory. The pistol was found to be fully charged, and Kelly's hand only had discharged.

After being shot, officer Hickey attempted to secure the assailant, and nearly succeeded. He was soon carried to his residence, on the corner of Franklin street and Chatlie place, and Dr. James A. Collins called to attend him.

For some hours his injuries were thought to be fatal, as there seemed to be an entire suspension of some of the animal functions, but later in the day he rallied, and last evening it was thought there were strong hopes of his recovery.

Sergeant Hickey is well known to our citizens as one of the most quiet and popular men of our police force. Every one who has ever been brought in contact with him has learned to respect him for his many noble qualities, and they will hear with deep regret of the murderous attack at the hands of a drunken desperado. He was once a justice of the peace in this city, and for many years has been connected with our police force. He has a fine family and a State upon his record.

The villain who did the shooting, we learn, is a New York rough, who has been in the city but a few weeks. The other is a well known rowdy of Chicago.

INTERNAL REVENUE.—IMPORTANT DECISION.—From a circular dated at Washington, Aug. 16, 1864, we glean the following decision relative to the assessment and collection of the tax on the gross receipts of railroads, steamboats, canals, &c. Section 169 of the act of June 30, 1864, imposes a tax of 5% per cent. on the gross receipts of all railroads, canals, steamboats, ships, barges, canal boats, stage coaches, &c., employed in the transportation of persons and property, and 3 per cent on the gross receipts of all horse railroads, ferries and bridges.

The owner, possessor or party having the care or management must make the returns and pay the tax. Where the owner is known, and the railroad, canal, etc., is under his control, he is the party liable. Where another than the owner is the manager, he is liable. Where the owners or proprietors of a canal own the boats they are liable; but if not, they are not, and the owners of the boats are liable. If a railroad is leased to another, the lessee managing the business is liable. No deduction can be made on the gross receipts on account of any kind.

The term "other vehicle" mentioned in the act, includes coaches, wagons, hacks, drays, carts, omnibuses, of all kinds.

Where a party uses his own vehicle in transporting his own goods, he is not liable to the duty.

The transportation of conveyance, passengers or mails, between ports of the United states and foreign ports, is exempt from duty. Goods, wares, merchandise, property, persons or mails are transported from a port in the United States to a port in the British provinces, but the goods are destined for some port in the provinces to another port in the United States, the party so transporting from port to port is exempt from the duty. Where the tax or duties each port, within the limits of the United States, must be collected.

Railroad companies will include the amount received for the use of sleeping cars, and steamboats for the use of state rooms in their returns.

When the expenses of board are included in the charges for transportation on steamboats, the assessor will make a proper allowance therefor.

The towing of boats and barges is not considered transportation, and no tax is to be assessed on the receipts therefor.

When the owner or agent of any toll road or bridge shall make oath, in accordance with section 178 of said act, the owners or managers of all railroads, canals, steamboats, boats, barges, coaches, &c., employed within ten days after the first of every month, to make a due return for the preceding month of the gross receipts.

BOARD OF POLICE.—A regular meeting of the Board of Police Commissioners was held yesterday. Commissioners Brown, Wentworth, and Mayor Sherman were present, the latter presiding. Wentworth, acting Chairman. The minutes of last meeting were read and approved.

Nicholas Klinger presented his resignation as police officer.

Captain Gund, of the North Side police, sent in a communication stating that he had arrested a deserter from the 79th Illinois regiment, and was entitled to $100 for same, and asked the permission of the Board to accept the reward. On motion of Commissioner Wentworth, the permission was granted.

Health Officer Perry reported that the nuisance at Wahl's glue factory had been abated.

A communication was received stating that the following named persons had been discharged from the police force: Martin Conedin, David C. Sheldon, William Arbuckle, Edward Smith, F. Oakes, G. G. Miller, Philip Paul.

Charges were presented against Conrad Ulrich, for illegal arrest and for false imprisonment; but they were subsequently withdrawn, and Mr. Ulrich restored to duty.

The resignation of police officer A Torkilson was presented and accepted, and Mr. Torkilson appointed Special Policeman at Schuria's on Milwaukee avenue.

A communication was presented from several citizens, complaining of two Slaughter Houses, situated in the Southern part of the city, the names of the owners not appearing. Referred to Chief Perry.

On motion of Commissioner Brown the superintendent has been authorized to retain each of the 30 days men as he deemed most suitable for the police force.

Superintendent Turtle reported that the force would amount to about one hundred men.

Sundry bills were presented and ordered paid.

The claim of W. C. Abbott for services as Secretary of the Board of Police from May 1st to July 15th, was presented, and on motion of Commissioner Brown it was allowed.

On motion the Board then adjourned.

AID FOR THE SOLDIERS.—The ladies of the Soldiers' Home and Rest are in great need of butter. We ask the friends of the soldier to aid in furnishing this article, peculiarly grateful to the vet eran, and so scarce in the army. By no means a healthy soldier may do without it, but a large proportion of those arriving are sick, and to them it is almost a necessity. The extraordinary number of sick cared for during the past few days has depleted their stores, and necessitates the call for aid.

Our report of the proceedings of the Board, in this issue, contains the two Anderson contributions, the proceeds of two Fairs, conducted by young ladies. To all other little girls and ladies we say, "Do likewise, or, if you can not know how much good results from your labors.

DISORDERLY CIGAR MAKERS.—Yesterday about thirty men belonging to the Cigar Makers' Union, were arraigned at the Police Court on a charge of disorderly conduct, preferred by Michael New, who keeps a cigar factory on the corner of LaSalle and South Water streets. The trouble originated in the fact that New keeps a number of "rats" who are not members of the Union, and who refuse to join. About fifty of the indignant Unionists visited him on Thursday, and insulted him outrageously; raising a great disturbance. Saturday about half of them were arrested, and the ringleaders, Adolph Schultz and William Ewers, were fined $10 each; the others $5 each. Justice Hillman remarked that he dealt this lightly with them, as it was their first offense. He reproved he would extend to them no sympathy.

LOCAL MILITARY INTELLIGENCE.—The 41st Wisconsin, one hundred day troops, Maj. D. Gray commanding, arrived in the city about midnight on Thursday. Their present strength is about 575 men. They left home three months ago with about 920. They have been in the front during the time, death from disease and casualties of battle.

Seventy-one others, also belonging to the 134th Illinois, one hundred day men, mustered the city yesterday morning. They came from Paducah, Ky., and were in charge of Lieut. M. B. Hughson. They report the regiment at Mayfield, Ky., and about to start for home.

Twelve men of the Veteran Reserve Corps, in charge of Sergt. G. Myers, reached the West yesterday, direct from Louisville. They go to Camp Douglas.

RECRUITING AMONG WAITERS.—The Citizens' Committee want to engage twenty good men to act as recruiting accents in filling the quota of Cook county. Parties may apply to Charles Walker, corner of State and Randolph streets, up to date this day, between the hours of 11 and 12 and 3 and 5

RELIGIOUS INTELLIGENCE.

Rev. Dr. Taylor, one of the secretaries of the American Bible Society, will preach in the First Presbyterian Church (Rev. Dr. Humphreys) tomorrow morning at 10½ o'clock.

Dr. Taylor (and others) will also address a Union Bible meeting at Bryan Hall to-morrow evening at 7½ o'clock.

The pastors of churches are requested to give notice of this meeting at Farwell Hall in the evening, to their several congregations to-morrow morning.

Dr. Taylor visits Chicago as one of a commission the agents of the American Bible Society in the Northwest, to consult with reference to the location of the work in which they are engaged. The convention will continue in session several days.

Livingston Reformed Church, corner of Sangamon and Monroe streets, service Sunday morning at 10½ o'clock, by Rev. N. D. Williamson, Pastor. Evening service omitted for this meeting in Bryan Hall.

Chicago Citizens' Corps.

There will be a meeting of the citizens this evening at the office of Capt. Parker, Tremont House, in order to take consideration the raising funds to arm and uniform this organization.

The organization of the old "Minutemen" as an independent citizens' battalion, is a movement in which every property holder, and in fact every business man in Chicago, ought to feel an interest.

If the necessary funds are furnished by our citizens the services of the men of the city and the interests of the River and property of the citizens will be insured.

It is extremely hoped our Chicago people will see the importance of the formation of this character, and embrace the chance by its support.

A Good Suggestion.

EDITOR TRIBUNE:

The writer of this has called twice, and on both occasions waited some time, at No. 8 Court House, desiring to invest, to the extent of his means, in county scrip for the purchase of army quota. I would suggest that the books be distributed among our bankers, and conspicuously advertised, believing it would further the end of the law.
